Personal Statement

Data Analyst with an MSc in Data Science and practical experience in data analysis, SQL querying, data cleaning, business reporting, and Power BI dashboard development. Proficient in Python, SQL, Power BI, Excel, and data visualisation, with experience processing 100,000+ records and developing 10 interactive dashboards to support KPI monitoring and business performance analysis. Skilled in data validation, exploratory data analysis, trend identification, and translating complex datasets into actionable business insights. Microsoft Certified Power BI Data Analyst Associate with a strong focus on delivering accurate, efficient, and data-driven solutions.

Technical Skills

Programming & Data Analysis: Python, Pandas, NumPy, Exploratory Data Analysis (EDA)
SQL & Databases: SQL Server, T-SQL, MySQL, SQLite, Joins, CTEs, Subqueries, Aggregations, Data Extraction
Business Intelligence: Power BI, DAX, Power Query, Data Modelling, KPI Dashboards, Tableau
Microsoft Excel: PivotTables, Pivot Charts, VLOOKUP, XLOOKUP, IF, SUMIFS, COUNTIFS, Data Cleaning
Data Quality & Validation: Data Validation, Data Quality Checks, Missing Value Handling, Duplicate Detection, Data Transformation
Business Analytics: Business Reporting, Trend Analysis, Statistical Analysis, Data Visualisation, Performance Monitoring

---

Professional Experience

Intern - Data Analyst | Source Code Technology Private Ltd., India | August 2022 – July 2023

- Processed, cleaned, and transformed **200,000+ records** using Python, SQL, and Excel, ensuring data accuracy, consistency, and reliability for analysis.
- Developed and optimised SQL queries using joins, filtering, and aggregations to extract, analyse, and transform datasets for business reporting.
- Conducted Exploratory Data Analysis (EDA) using Python to identify trends, patterns, anomalies, and actionable business insights.
- Designed and developed **10 interactive Power BI dashboards** incorporating KPI visualisations to monitor business performance and support operational decision-making.
- Contributed to a **15% improvement in operational tracking efficiency** through effective data analysis, reporting, and performance monitoring.
- Implemented data validation and quality checks to identify missing values, duplicate records, and inconsistencies, improving data reliability.
- Prepared analytical reports and translated findings into clear, actionable insights to support business evaluation and data-driven decisions.

Key Projects

UK Retail 360° — Enterprise BI, Sales & Operations Analytics | SQL Server, T-SQL, Power BI, DAX, Data Modelling, Power Query

- Developed an interactive Retail 360 Business Intelligence dashboard to analyse revenue, profit, sales trends, and retail performance.
- Utilised SQL Server and T-SQL to extract, transform, and analyse retail datasets for business reporting.
- Designed Power BI dashboards incorporating KPI cards, interactive filters, and data visualisations to support performance monitoring.
- Analysed sales performance across physical stores and online channels to identify revenue and profitability trends.
- Visualised key business metrics, including **£3.59M revenue, £1.51M profit, and a 42.1% profit margin**, enabling clear performance evaluation.

Diabetes Prediction and Risk Analysis | Python & Machine Learning | Python, Pandas, NumPy, Scikit-learn, XG Boost, Cat Boost, Matplotlib, Seaborn

- Conducted exploratory data analysis on a diabetes indicators dataset containing **253,680 records** to identify patterns associated with diabetes.
- Performed data preprocessing, data cleaning, feature selection, and statistical analysis using Pearson correlation, Mutual Information, ANOVA, and Chi-square tests.
- Developed and evaluated classification models, including Logistic Regression, Random Forest, K-Nearest Neighbours, Gradient Boosting, XG Boost, and Cat Boost.
- Addressed class imbalance using resampling techniques, including SMOTE and under-sampling.
- Evaluated model performance using accuracy, precision, recall, F1-score, and ROC-AUC to compare classification results.

Education

MSc Data Science

University of Hertfordshire, UK | 2023 – 2024

B.E. Computer Engineering

Savitribai Phule Pune University, India | 2019 – 2022

Certifications

- Microsoft Certified: Power BI Data Analyst Associate (PL-300) — June 2026
- Data Analytics with Python & SQL Certification — Simplilearn
- Business Analytics with Excel — Simplilearn

Other Experience

Supermarket Assistant | Waitrose, London, UK | March 2024 – Present

- Maintained accurate stock and operational records, demonstrating strong attention to detail and data accuracy in a fast-paced retail environment.
- Monitored stock levels and product availability, supporting inventory management and operational efficiency.
- Collaborated with cross-functional teams to resolve operational issues, applying strong communication, analytical thinking, and problem-solving skills.
